Employment History

Software Engineer @ Nubank
São Paulo - Brazil   **06/2025 - Present**

Analysis and development of microservices in the Fraud Business Unit, focusing on asynchronous processing and data-driven decision making. In addition, responsible for creating and maintaining operational dashboards, producing daily monitoring reports after deploying new features or fixes, and managing alerts related to service health and performance.

Skills: Clojure - Datomic - Kafka - Grafana

Tech Lead / Full Stack Developer @ Golfleet
Londrina - Brazil   **01/2020 - 05/2025**

Experience developing a mobile application focused on delivering a fully native user experience across platforms. Also contributed to the back-end, working on high-performance APIs, data access layers, containerized environments, messaging flows, and relational data management.

Skills: C# - Kotlin - Jetpack Compose - Swift - SwiftUI - MS SQL Server - SQLite - RabbitMQ - Docker - Sentry SDK - Kubernetes

Back-End Developer @ Neon
São Paulo - Brazil   **12/2019 - 01/2020**

General improvements and refinements to legacy web applications, with a focus on maintenance, performance optimization, and modernization of existing functionalities.

Skills: C# - ASP.NET - JavaScript - MS SQL Server

Full Stack Developer @ Golfleet
Londrina - Brazil   **09/2018 - 11/2019**

Experience developing web applications across both front-end and back-end services. Key achievements include creating advanced reporting features (with saving, sharing, and automated delivery), building a service for facial recognition training and management, implementing application-wide logging, and standardizing microservices deployment processes.

Skills: C# - AngularJS - MS SQL Server - MongoDB - Amazon S3 - Amazon Rekognition - RabbitMQ - Docker

System Analysis and Development @ Atos
Londrina - Brazil   **01/2015 - 09/2018**

Systems analysis and development, along with maintenance of integrated applications connecting the Volkswagen/MAN and its dealer network, ensuring reliability, consistency, and smooth communication across systems.

Skills: C# - ASP.NET - MS SQL Server - BizTalk Server
